Descripción general	<p>Call to fund space downstream applications: Almost all LAC countries (exceptionally) eligible to funding, Colombia included.</p> <p>HORIZON-EUSPA-2022-SPACE-02-56: Designing space-based downstream applications with international partners (Research and Innovation Action)</p> <p>The action focuses on technical developments of EU-space based applications/solutions, dissemination, awareness-raising, as well as provide opportunities for the creation of business-oriented partnerships of European industry with international partners (countries with existing Copernicus Agreements, Colombia included). By doing so the action aims to achieve a critical mass of space based-application success stories, demonstrating the advantages and differentiators of EU space-based solutions and services and making it an attractive option for public authorities, private industries and private investors in Europe and elsewhere.</p> <p>“Research and Innovation Actions” (RIA) includes activities that aim primarily to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution. This may include basic and applied research, technology development and integration, testing, demonstration and validation of a small-scale prototype in a laboratory or simulated environment.</p> <p>The funding rate of Research and Innovation Actions is 100%.</p>
