

#HorizonEU

THE EU RESEARCH & INNOVATION PROGRAMME 2021 – 27

This presentation is based on the political agreement of 11 December 2020 on the Horizon Europe. Information on some parts is pending revision.

Our Vision

The EU's key funding programme for research and innovation:

- Tackles climate change
- Helps to achieve the UN's Sustainable Development Goals
- Boosts the EU's competitiveness and growth
- Facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges
- Supports the creation and better diffusion of excellent knowledge and technologies
- Creates jobs, fully engages the EU's talent pool, boosts economic growth, promotes industrial competitiveness and optimises investment impact within a strengthened European Research Area.

*Exclusive focus on
defence research
& development*

Research
actions

Development
actions

SPECIFIC PROGRAMME IMPLEMENTING HORIZON EUROPE & EIT*

Exclusive focus on civil applications

Pillar I EXCELLENT SCIENCE

European Research Council

Marie Skłodowska-Curie

Research Infrastructures

Pillar II GLOBAL CHALLENGES & EUROPEAN INDUSTRIAL COMPETITIVENESS

Clusters

- Health
- Culture, Creativity & Inclusive Society
- Civil Security for Society
- Digital, Industry & Space
- Climate, Energy & Mobility
- Food, Bioeconomy, Natural Resources, Agriculture & Environment

Joint Research Centre

Pillar III INNOVATIVE EUROPE

European Innovation
Council

European Innovation
Ecosystems

European Institute of
Innovation & Technology*

WIDENING PARTICIPATION AND STRENGTHENING THE EUROPEAN RESEARCH AREA

Widening participation & spreading excellence

Reforming & Enhancing the European R&I system

Fusion

Fission

Joint
Research
Center

* The European Institute of Innovation & Technology (EIT) is not part of the Specific Programme

Horizon Europe Budget: €95.5 billion (2021-2027)

(including €5.4 billion from NGEU – Next Generation Europe – programme of EU for Recovery from COVID-19 crisis)

Political agreement December 2020

€ billion in current prices

- Excellent Science
- Global challenges and European ind. comp.
- Innovative Europe
- Widening Part and ERA

Lessons Learned

from Horizon 2020 Interim Evaluation

Support breakthrough innovation

Create more impact through mission-orientation and citizens' involvement

Rationalise partnerships' landscape

Reinforce openness

Strengthen international cooperation

Encourage participation

Key Novelties

in Horizon Europe

European Innovation Council

EU Missions

New approach to partnerships

Open science policy

Extended association possibilities

Spreading Excellence

European Innovation Council

Support to innovations with breakthrough and disruptive nature and scale up potential that are too risky for private investors (**70% of the budget earmarked for SMEs**)

**European
Innovation Council –
a one-stop-shop**

- Helping researchers and innovators create markets of the future, leverage private finance, scale up their companies
- Innovation centric, risk taking & agile, pro-active management and follow up
- Mostly 'bottom up', but also targeting strategic challenges
- EIC Programme Managers to develop visions for breakthroughs and steer portfolios

Complementary instruments bridging the gap from idea to market

PATHFINDER

R&I grants
(from early technology
to proof of concept)

TRANSITION

R&I grants
(proof of concept to
pre-commercial)

ACCELERATOR

**Grants & investment (via EIC Fund) for
single SMEs & start-ups**
(from pre-commercial to market & scale-up)

EU Missions

R&I Missions

Relating EU's research and innovation better to society and citizens' needs; with strong visibility and impact

A mission is a portfolio of actions across disciplines intended to achieve a **bold and inspirational and measurable goal** within a set timeframe, with **impact** for society and policy making as well as relevance for a significant part of the European population and wide range of European citizens.

Horizon Europe defines mission characteristics and elements of governance, and **5 missions areas**. Specific missions will be programmed within the Global Challenges and European Industrial Competitiveness pillar, but may also benefit from actions carried out within other parts of the Programme as well as complementary actions carried out under other Union programmes.

Five Missions Areas

**Adaptation to
climate change,
including societal
transformation**

Cancer

**Healthy oceans,
seas, coastal &
inland waters**

**Climate-neutral
& smart cities**

**Soil health &
food**

New approach to European Partnerships

New generation of objective-driven and more ambitious partnerships in support of agreed EU policy objectives

Key Features

- **Strategic orientation**
- **Systemic approach**
- **Simple architecture and toolbox**
- **Common set of criteria for the life-cycle**

CO-PROGRAMMED

Based on Memoranda of Understanding/contractual arrangements; implemented independently by the partners and by Horizon Europe

CO-FUNDED

Based on a joint programme agreed and implemented by partners; commitment of partners for financial and in-kind contributions

INSTITUTIONALISED

Based on long-term dimension and need for high integration; partnerships based on Art 185/187 of TFEU and the EIT legal acts for 2021-2027

International Cooperation

International Cooperation

Tackling together global societal challenges; access to the world's best talents, expertise and resources; enhanced supply and demand of innovative solutions

Association to Horizon Europe

- Third countries with good capacity in science, technology and innovation
- Taking into account objective of driving economic growth in Europe through innovation
- Intensified targeted actions
- Strengthened support to multilateral cooperation
- Openness to international participation balanced with the promotion of EU strategic autonomy

Open Science across the programme

Open Science

Mainstreaming of open science practices for improved quality and efficiency of R&I, and active engagement of society

Mandatory immediate Open Access to publications: beneficiaries must retain sufficient IPRs to comply with open access requirements;

Data sharing as ‘open as possible, as closed as necessary’: mandatory Data Management Plan for FAIR (Findable, Accessible, Interoperable, Reusable) research data

- Work Programmes may incentivize or oblige to adhere to **open science practices** such as involvement of citizens, or to use the **European Open Science Cloud**
- Assessment of open science practices through the **award criteria** for proposal evaluation
- Dedicated support to **open science policy actions**
- **Open Research Europe** publishing platform

Pillar I

EXCELLENT SCIENCE:

reinforcing and extending the **excellence of the Union's science base**

European Research Council

Frontier research by the best researchers and their teams

€16 billion

Marie Skłodowska-Curie Actions

Equipping researches with new knowledge and skills through mobility and training

€6.6 billion

Research Infrastructures

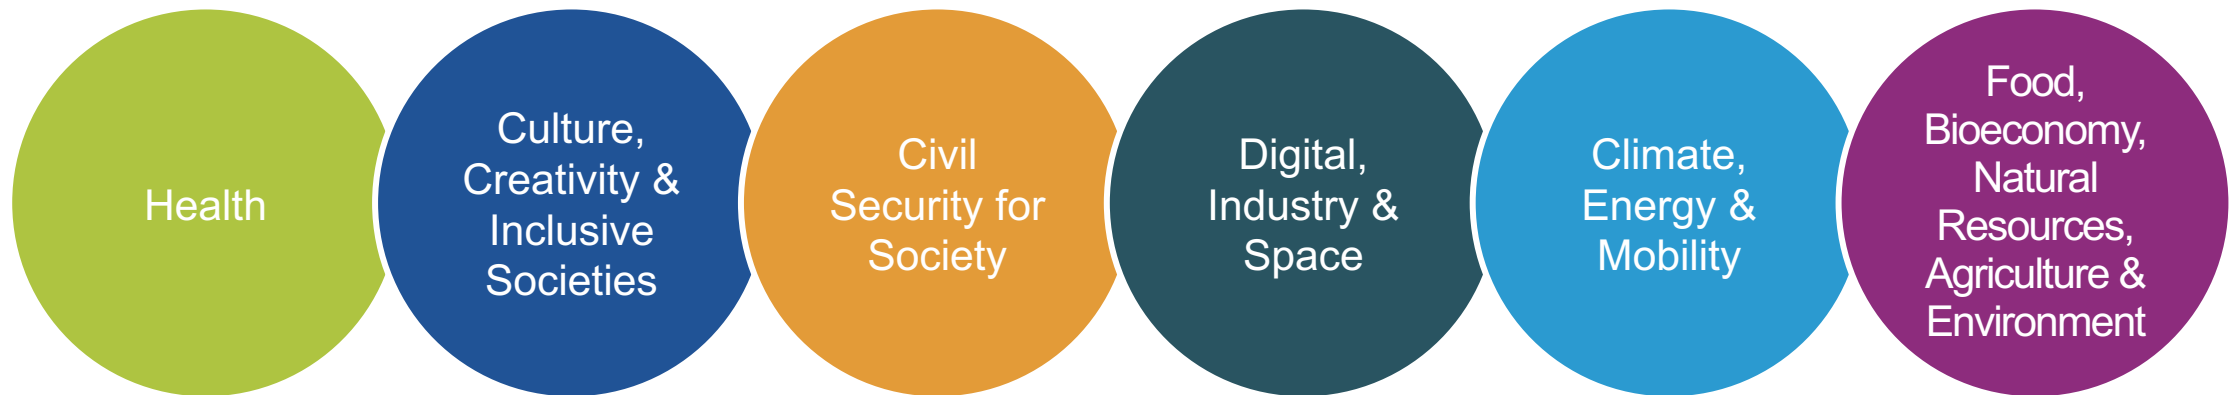

Integrated and inter-connected world-class research infrastructures

€2.4 billion

Pillar II - Clusters

GLOBAL CHALLENGES & EUROPEAN INDUSTRIAL COMPETITIVENESS:

boosting **key technologies** and solutions underpinning **EU policies & Sustainable Development Goals** (6 clusters and JRC – non-nuclear direct actions)

€53.5 billion

Pillar II

Budget for clusters & for JRC

in current prices

Cluster 1	Health	€8.246 billion (including €1.35 billion from NGEU)
Cluster 2	Culture, Creativity & Inclusive Societies	€2.280 billion
Cluster 3	Civil Security for Society	€1.596 billion
Cluster 4	Digital, Industry & Space	€15.349 billion (including €1.35 billion from NGEU)
Cluster 5	Climate, Energy & Mobility	€15.123 billion (including €1.35 billion from NGEU)
Cluster 6	Food, Bioeconomy, Natural Resources, Agriculture & Environment	€8.952 billion
	JRC (non-nuclear direct actions)	€1.970 billion

Clusters are including a budget for Partnerships and Missions
NGEU is Next Generation EU programme – Recovery Fund

Pillar III

INNOVATIVE EUROPE:

stimulating **market-creating breakthroughs** and **ecosystems** conducive to innovation

European Innovation Council

Support to innovations with breakthrough and market creating potential

European innovation ecosystems

Connecting with regional and national innovation actors

European Institute of Innovation and Technology (EIT)

Bringing key actors (research, education and business) together around a common goal for nurturing innovation

The budget: **€10.6 billion**, incl. up to **€527 million** for ecosystems (including NGEU – Recovery Fund parts dedicated to EIC).

circa **€3 billion**

Part

Widening Participation & Strengthening the European Research Area (ERA):

Widening Participation and Spreading Excellence

- Teaming, Twinning, ERA Chairs,
- European Cooperation in Science and Technology (COST)
- Boosting National Contact Points' (NCPs) activities, pre-proposal checks and advice
- Brain circulation
- Excellence initiatives:
- Possibility for entities from widening countries to join already selected collaborative R&I actions
- Recognition of participation
- Matchmaking services

€2.96 billion

Reforming and enhancing the EU R&I system

- Strengthening the evidence base for R&I policy
- Foresight
- Support for policy makers to the ERA development
- Support to national R&I policy reform, including Policy Support Facility
- Attractive researcher careers and links with higher education
- Open science, citizen science and science communication
- Gender equality
- Ethics and integrity
- Support to international cooperation
- Scientific input to other policies
- Support to the Programme implementation
- Support for National Contact Points
- Support to dissemination & exploitation

€0.44 billion

EURATOM research and training programme (2021-2025)

Objective

Research and training activities to reduce risks in nuclear safety and security, development of safe nuclear technologies and optimal radiation protection.

Key novelties

- Increased focus on non-power applications of radiation (medical, industrial, space)
- Opening mobility opportunities for nuclear researchers through inclusion in Marie Skłodowska-Curie Actions

Budget for years 2021-27

€1.981 billion

INTERNATIONAL COOPERATION IN HORIZON EUROPE

@EUScienceInnov | #EUResearchArea | #ResearchImpactEU | #HorizonEU

European
Commission

Global approach to research & innovation

*Europe's strategy for international cooperation in a changing world**

WHAT IS THE AIM OF THE GLOBAL APPROACH TO RESEARCH AND INNOVATION (R&I)?

To preserve openness in research and innovation international cooperation while promoting a level playing field and reciprocity underpinned by fundamental values.

To strengthen multilateral partnerships to deliver new solutions to green, digital, health and innovation challenges.

HOW WILL THIS BE ACHIEVED?

Modulating bilateral cooperation in line with European interests and values and EU's open strategic autonomy.

Accelerating sustainable and inclusive development, and the transition to resilient, knowledge-based societies and economies in low and middle-income countries.

Using a *Team Europe* approach, with actions by the EU, its financial institutions and Member States.

International cooperation in Horizon Europe

Main features

General openness to international participation

- Entities from all over the world can take part in collaborative R&I projects
- Researchers and innovators of any nationality can apply for grants
- Entities from most low-middle income countries are automatically eligible for funding

Targeted international cooperation actions

- Actions specifically relevant for international cooperation
- Targeted actions with key partners on specific thematic areas
- Cooperation with Africa under the Horizon Europe 'Africa Initiative'

International cooperation in Horizon Europe Work Programme 2021-2022

Key figures

200+

actions specifically relevant
to international cooperation
(ca. 1 in 5 total)

75

actions targeting
cooperation with specific
countries or regions

30

actions contributing to
key multilateral
initiatives

€3B+

total EU contribution to
international cooperation
actions

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 1 - Health

Key figures

7

topics encourage
international cooperation

€320 million

total EU contribution to these topics

Examples of thematic areas

- Infectious diseases (Africa)
- Mental health
- Health impacts of climate change
- AI for treatment and care
- Repurposing medicines
- Antimicrobial resistance

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 2 – Culture, Creativity & Inclusive Society

Key figures

9

topics encourage
international cooperation

€89 million

total EU contribution to these topics

Examples of thematic areas

- Politics and governance
- Cultural heritage
- Indicators for sustainable development
- Gender
- Migration

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 3 – Civil Security for Society

Key figures

16

topics encourage
international cooperation

€91 million

total EU contribution to these topics

Examples of thematic areas

- Disaster resilience
- Border management
- Infrastructure resilience
- Fighting crime and terrorism

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 4 – Digital, Industry and Space

Key figures

30+

topics encourage
international cooperation

€600+ million

total EU contribution to these topics

Examples of thematic areas

- Manufacturing, construction, processing
- Raw & advanced materials
- Next generation internet
- Nanomaterials health and environmental risks

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 5 – Climate, Energy & Mobility

Key figures

30+

topics encourage or
require international
cooperation

€540+ million

total EU contribution to these topics

Examples of thematic areas

- Connected & Automated Mobility
- Climate sciences
- Renewable energy
- Clean transport
- Biofuels (Mission Innovation)

International cooperation in Horizon Europe Work Programme 2021-2022

Cluster 6 – Food, Bioecon, Nat Res, Agricult & Envir

Key figures

55+

topics encourage or
require international
cooperation

€700+ million

total EU contribution to these topics

Examples of thematic areas

- Biodiversity & ecosystems (Africa, Brazil, Canada, LAC, Med, ...)
- Circular economy and bioeconomy
- Water, oceans, soil (incl. AORA, Arctic Ministerial, IRC on soil carbon,)
- Communities (Africa, Black Sea, JP, LAC, S. Med, US)
- Pollution

International cooperation in Horizon Europe Work Programme 2021-2022

Widening participation & strengthening the ERA

Key figures

12

topics encourage or support international cooperation

€64 million

total EU contribution to these topics

Examples of thematic areas

- FAIR data policy, citizen science
- Research ethics
- Open access
- Responsible R&I
- Service Facility for international cooperation

International cooperation in Horizon Europe Work Programme 2021-2022

Pillar I: Research Infrastructures

Key figures

9

topics encourage or
require international
cooperation

€170+ million

total EU contribution to these topics

Examples of thematic areas

- Research infrastructure services
 - *Areas: cancer, agriculture, environment, materials for circular economy, global value chains, frontier knowledge, COVID-19*
 - *Possibility for exceptional funding: AU; BR; CA; CN; IN; JP; MX; NZ; KO; RU; SG; US*

International cooperation in Horizon Europe Work Programme 2021-2022

Pillar I: MSCA and ERC

Marie Skłodowska-Curie Actions

- Doctoral Networks
- Staff Exchanges
 - address inter-sectoral, *international* and interdisciplinary mobility
- Global Fellowships
 - 1 - 2 years in non-associated third country + 1 year return phase to EU or associated country
 - Open to EU or associated country nationals or long-term residents

European Research Council

- ERC research teams include researchers of nationalities from all over the world

International cooperation in Horizon Europe Work Programme 2021-2022

Contribution to key multilateral initiatives

NCP Services

In general, the following basic services are available in accordance with the [NCP Guiding Principles](#) agreed by all countries:

1. Guidance on choosing relevant Horizon Europe topics and types of action
2. Advice on administrative procedures and contractual issues
3. Training and assistance on proposal writing
4. Distribution of documentation (forms, guidelines, manuals etc.)
5. Assistance in partner search

Excluded content

Projects are excluded from the following excluded content:

The actions focus on the topic of international research and innovation (R&I) programmes by joining national resources and contributing to the achievement of national research and innovation (R&I) programmes.

- identification of common research and innovation priorities agreed among the participating national and regional R&I programmes, taking into account international developments and relevant
- implementation of multidisciplinary and multidisciplinary research in the funding of transnational collaborative R&I projects;
- implementation of research activities according to the market, technology and science of research.

Open Access

Scope

Scope

Referring and enhancing the EU research and innovation system

Introduction

Horizon Europe has a number of objectives – to increase the impact of EU research and innovation funding for European science, economy and the wider society; to make a significant change in the design of the EU Framework Programme for Research and Innovation (FP) to make it more effective and efficient; to ensure the continuity of the European Research Area (ERA) as described in the recently published Commission Communication on the ERA for Research and Innovation (COM(2020) 628 final) of 22.09.2020.

The COVID-19 pandemic demonstrates the importance of R&I cooperation to develop solutions to society's most demanding needs. Delivering Europe's recovery is a priority as are the green and digital transitions. To meet these challenges a new level of ambition that links better R&I with the economy as well as with innovation and training is necessary to outline the EU's scientific knowledge to work.

Open Access

International Cooperation

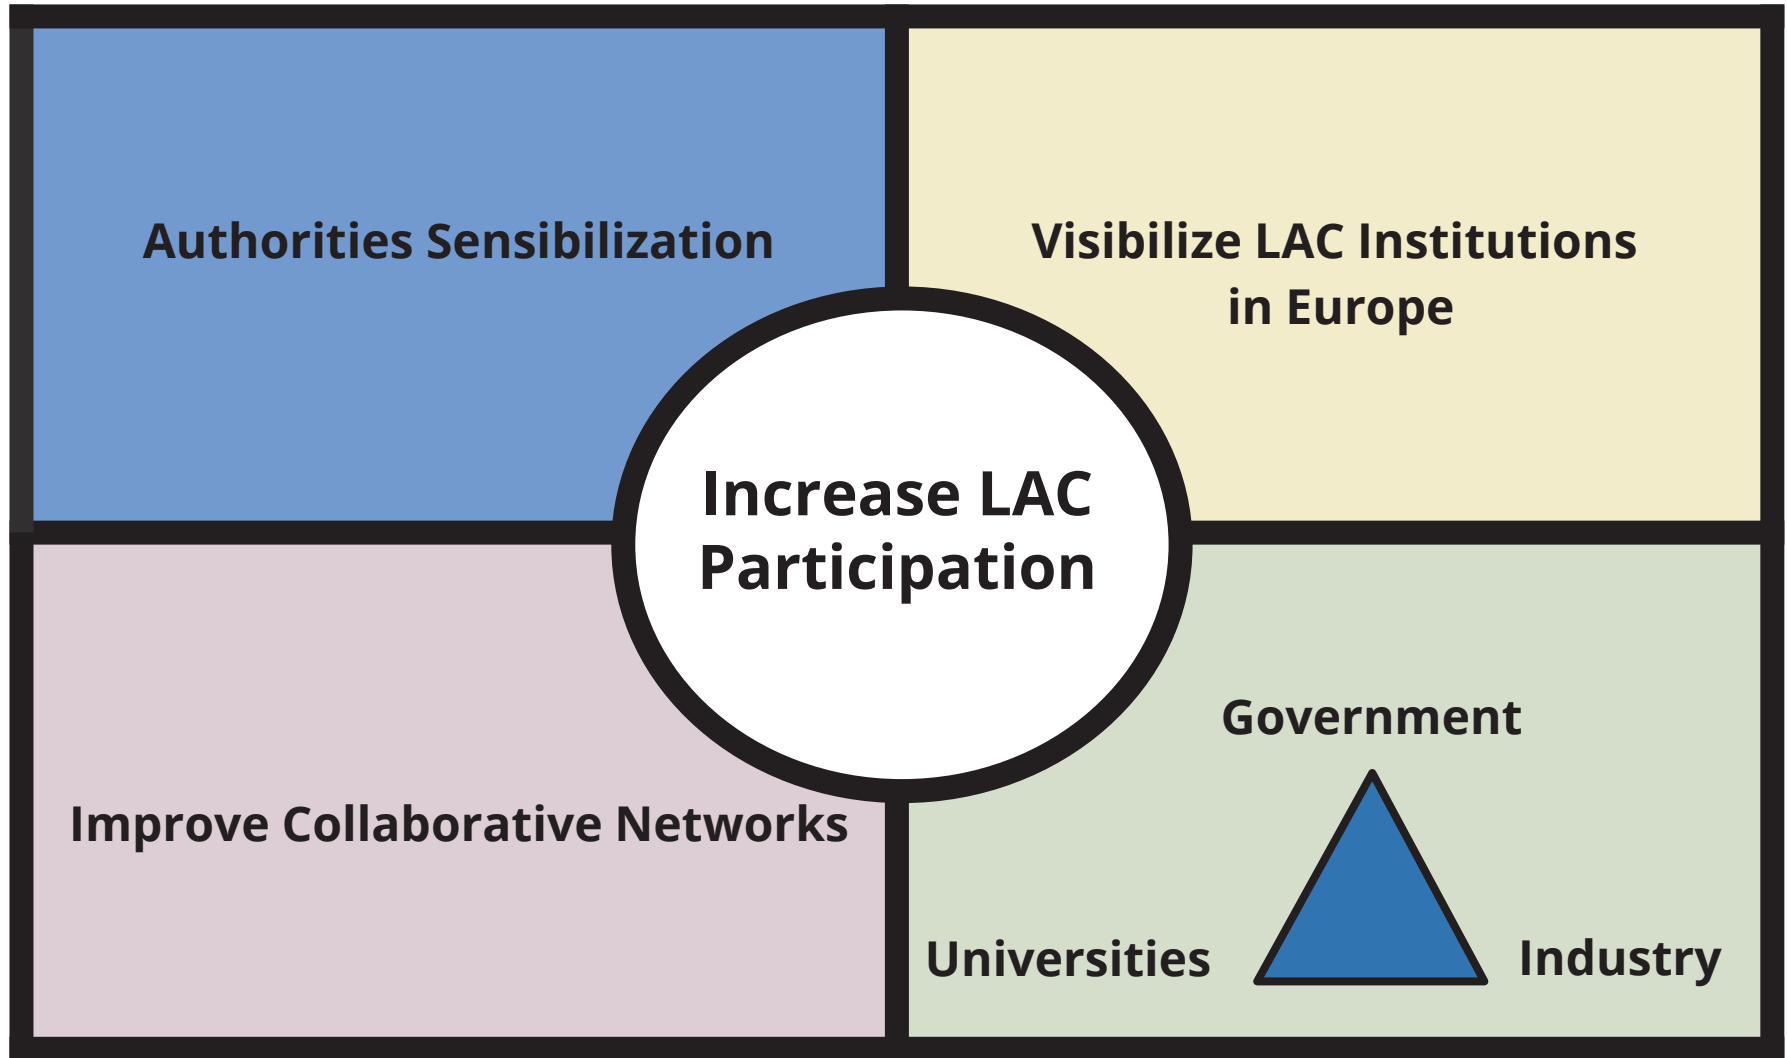

Resolving together global societal challenges; access to the world's best talents, expertise and resources; enhanced supply and demand of innovative solutions

- **Intensified targeted actions**
- **Strengthened support to multilateral cooperation**
- **Open to international participation balanced**

Association in Horizon Europe

- 3rd countries with good capacity in science, technology and innovation
- Objective: drive economic growth in Europe through innovation
