

LEVERHULME TRUST – VISITING PROFESSORSHIP SCHEME

8. Leverhulme Trust – Visiting Professorship scheme	
Institución / país	Leverhulme Trust / Reino Unido
Dirigido a	Profesores
Plazo	10 October 2022
Información / postulación	https://www.leverhulme.ac.uk/visiting-professorships
Descripción general	<p><u>Visiting Professorships Scheme:</u></p> <p>For UK institutions to invite an eminent researcher from overseas to enhance the skills and knowledge of the academic staff and/or students.</p> <p>Value: applications are invited for a minimum of £10,000 and a maximum of £150,000.</p> <p>Duration: a Visiting Professorship may last for between 3 and 12 months, and tenures of 6 months or more can be spread over 2 or more visits.</p> <p>Eligibility: applications must be made by a member of academic staff, based in a UK university or other higher education institution, who will be responsible for coordinating the visit. The host academic's employing institution must also agree to administer the grant, if awarded, and to provide appropriate facilities for the Visiting Professor. Visitors who have previously held a Leverhulme Visiting Professorship can only apply if at least 7 years have elapsed since the last one.</p> <p>The over-riding criteria for selection are:</p> <ul style="list-style-type: none"> • the academic standing and achievements of the visitors in terms of their research and/or teaching • their potential for making a substantial contribution to skills in the host institution • the specific and systematic nature of the proposed programme while in the UK <p>Collaborative research alone will not be a sufficient justification for a grant. The emphasis should be on the diffusion of skills and expertise. Priority will be given to new or recent collaborative ventures. Where a visit builds on an existing collaboration, the host should explain what the visit(s) will achieve over and above past outcomes.</p> <p>Eligible fields of study Applications will be considered in all subject areas except:</p> <ul style="list-style-type: none"> • studies of disease, illness and disabilities in humans and animals

	<ul style="list-style-type: none"> • research that is intended to inform clinical practice or the development of medical applications <p>The Trusts always excludes these areas because substantial funding is available from other sources for applied medical research and the Trust's priority is to support investigations of a fundamental nature.</p>
